

Reliable single axis tracker

Genius Tracker offers fast install and overall value for low O&M costs. It has completed Black & Veatch technical assessment, CPP wind tunnel testing, is rated 150mph, and ETL / UL 2703 tested. Genius Tracker provides 99.3% panel density on rows. It's linear actuator drive system has a 40-year operating life and is IP 66 rated for operation in harsh environmental conditions. Every drive actuator has its own battery backup and wirelessly linked controllers, eliminating all trenching. Tru3D-Gimbal bearings account for pile installation being out of plumb, out of azimuth, and out of vertical and east-west alignment. Self-powered rows eliminates central drive, allowing for uninterrupted grass cutting and panel washing. GameChange Solar provides free installation training and tracker commissioning for their Genius Tracker systems.

Electric power meters

Advanced Control Systems offers the MultiPhase Energy meter and the comprehensive meter suite with 1000 V accuracy as well as the full line of high accuracy 480 volt meter capabilities and the MultiPhase Energy meter for 480V to 1000V. The meters are low cost, high accuracy electric power monitoring and energy meter monitoring systems for 1000 applications. The compact meter and meter capabilities are designed to provide the most accurate, reliable power meter monitoring systems for 1000 applications. The MultiPhase Energy meter is a single phase application for the MultiPhase meter and has 1000 meter capabilities. The meters are low cost, high accuracy, and reliable. The meters are designed to provide the most accurate, reliable power meter monitoring systems for 1000 applications.
